COMPANY EXPERIENCE

Feb 2026
-
Present

Betodemy - Japanese Learning Platform

Full-Stack Developer | Part-time, remote | 5-person team

React 19 | NestJS | PostgreSQL | Redis | Nx

- Shipped and stabilized production features across student, teacher and admin workflows.
- Tracked post-release defects and supported weekly release handoffs in a 5-person team.

Achievement: Made production defects traceable through weekly issue, review and release handoffs.

May 2026
-
Jul 2026

AI Power - Automotive Dealership ERP

Odoo ERP Support Developer Intern

Python 3.12 | Odoo 18 | PostgreSQL | QWeb/XML | GitLab CI

- Resolved BA/customer defects across 18 Odoo modules and 99+ Python files.
- Kept 18-state after-sales workflows and localized QWeb reports aligned with operations.

Achievement: Kept 18 custom modules aligned with BA/customer changes across the dealership workflow.

Jul 2025
-
Jan 2026

Great Link Mai House

Full-Stack Developer | BA-facing delivery

React 18 | ASP.NET Core 8 | SQL Server | SignalR | JWT

- Rebuilt WordPress workflows as a React + ASP.NET Core platform.
- Owned requirements-to-release delivery across auth, media, realtime and B2B publishing.

Achievement: Replaced fragmented WordPress workflows with one maintainable product delivery flow.

Oct 2024
-
Jan 2026

VN Media Hub

Full-Stack Developer | BA-facing delivery

React 18 | ASP.NET Core 8 | SQL Server | Redis | Serilog

- Delivered a production CMS for content, moderation and reporting workflows.
- Added caching, structured logging, SEO publishing and PDF exports for reliable operations.

Achievement: Centralized publishing operations with stronger observability and automated reporting.
