

Nguyen Xuan Hai

Full-Stack Developer | React | ASP.NET Core | NestJS | PostgreSQL

Ho Chi Minh City, Vietnam | Date of Birth: 29/11/2004 | +84 929 501 116 | xuanhai0913750452@gmail.com

Portfolio: my-portfolio-nxh.vercel.app | GitHub: github.com/xuanhai0913 | LinkedIn: linkedin.com/in/xuanhai0913

PROFESSIONAL SUMMARY

Full-stack developer with commercial software delivery experience since October 2024 across part-time and internship roles. Builds production React, ASP.NET Core, NestJS and Odoo workflows from requirement clarification through release and support. Hands-on with authentication, CMS, realtime features, ERP business logic, PostgreSQL and SQL Server; uses AI coding tools selectively for review, test drafting and delivery support.

EDUCATION

Ho Chi Minh City University of Transport (UTH): Information Technology, 2022 - Expected 2026 | GPA: 3.24/4.00. Coursework and projects focused on software development, OOP, databases and web systems.

SKILLS

Frontend: React 18/19, TypeScript, JavaScript ES6+, Vite, React Router, Tailwind CSS, responsive component UI.

Backend: C#, ASP.NET Core 8 Web API/MVC, Entity Framework Core, NestJS 11, Node.js/Express, RESTful APIs, JWT, OAuth2, Swagger/OpenAPI.

ERP & Data: Python 3.12, Odoo 18 ORM, QWeb/XML, PostgreSQL, SQL Server, Redis, TT200 accounting workflows.

Architecture & Quality: Dependency injection, service/repository separation, DTO validation, RBAC, CSRF, rate limiting, Jest, structured logging.

Delivery: Docker, GitLab CI/CD, GitHub Actions, IIS, Vercel, Git, Nx monorepo, issue/MR and release handoff workflows.

Developer Tools: Claude Code and Codex for codebase context, review, test drafting and documentation; engineering decisions verified in code and tests.

WORK EXPERIENCE

Core Full-Stack Developer - Betodemy - Japanese Learning Platform

Start: Feb 2026 | End: Present

My position: Core Full-Stack Developer

Stack: React 19, Vite, Tailwind CSS 4, HeroUI, NestJS 11, TypeORM, PostgreSQL, Redis, BullMQ, Socket.IO, Nx, pnpm, GitLab CI/CD

Link: <https://betodemy.com>

- Worked as a core developer in a 5-person engineering team with Betodemy's Japan-side leadership, joining weekly meetings to discuss bugs, feature scope and release priorities.
- Built document-editor, challenge-player, online-class and student/admin features across the React/NestJS Nx monorepo.
- Achievement: delivered 70+ merged MRs and closed 70+ authored issues across production learning workflows.

Odoo ERP Support Developer Intern - AI Power - Automotive Dealership ERP

Start: May 2026 | End: Jul 2026

My position: Odoo ERP Support Developer Intern

Stack: Python 3.12, Odoo 18, PostgreSQL, QWeb/XML, wkhtmltopdf, Docker, GitLab CI/CD, gettext i18n

Link: <https://aipower.vn/vi>

- Supported an Odoo 18 ERP for automotive dealerships in Vietnam, covering sales, an 18-state after-sales service workflow, spare parts, warranty and TT200 accounting.
- Debugged BA/customer-reported defects across business logic, data models, QWeb/XML views, localized PDF reports and translations.
- Achievement: supported fixes across all 18 custom modules and 99+ Python files without breaking the 18-state service workflow.

Part-time Full-Stack Developer / BA-facing Owner - OakMind Group - Three Production Web Products

Start: Oct 2024 | End: Jan 2026

My position: Part-time Full-Stack Developer / BA-facing Owner

Stack: C#, ASP.NET Core 8 Web API/MVC, Entity Framework Core, React 18/19, SQL Server, Redis, Serilog, JWT, SignalR, Cloudflare R2

Link: <https://oakmindgroup.com/>

- VN Media Hub: built production CMS workflows for authentication, content, moderation, caching, structured logging, SEO publishing and reporting.
- Great Link Mai House: converted legacy WordPress/ASP.NET MVC workflows into React screens and ASP.NET Core APIs with auth, media and realtime updates.
- OakMind Group website: shipped a live React 19 and ASP.NET Core corporate CMS with admin/editor workflows, bilingual content, SEO/analytics, video library and Cloudflare R2 media in 28 authored commits.
- Achievement: owned BA clarification through production release across three company products.

INDEPENDENT PROJECTS

Full-Stack Developer - ChongScam - Trust & Anti-Scam Platform

Start: Apr 2026 | End: Jul 2026

My position: Full-Stack Developer

Stack: *React 19, TypeScript, NestJS 11, PostgreSQL, Redis, session authentication, RBAC, CSRF, rate limiting, Jest*

Link: <https://chongscam.vn/>

- Task: build a production trust platform for checking transaction risk, verified traders and community scam reports.
- Action: implemented session/RBAC flows, search, moderation, audit controls, admin operations and security middleware across React and NestJS.
- Result: shipped the client-operated platform at chongscam.vn spanning 22 NestJS controllers, 20 SQL migrations and 12 Jest/e2e test suites.

Full-Stack / Algorithm Developer - RouteLab - Shortest Path Laboratory

Start: May 2026 | End: Jul 2026

My position: Full-Stack / Algorithm Developer

Stack: *React, TypeScript, Express, PostgreSQL, Dijkstra, A*, Floyd-Warshall, Bellman-Ford, Vitest, GitHub Actions*

Link: <https://tsp-delivery-route-optimizer.vercel.app/>

- Task: make shortest-path algorithms observable and comparable on weighted map and graph datasets.
- Action: implemented solver, API and PostgreSQL paths plus step-by-step replay visualization for four algorithms.
- Result: published a working demo with automated frontend/backend tests and a dedicated backend algorithm CI pipeline.

Full-Stack / Blockchain Developer - AgriTrace - Agricultural Traceability System

Start: Apr 2026 | End: Jun 2026

My position: Full-Stack / Blockchain Developer

Stack: *React, Express, PostgreSQL, Solidity, Hardhat, IPFS, Polygon Amoy, JWT, RBAC, QR verification*

Link: <https://github.com/xuanhai0913/agri-traceability-system>

- Task: model agricultural supply-chain traceability across producer, inspection, warehouse and distributor roles.
- Action: built React/Express/PostgreSQL operations, Solidity lifecycle contracts, IPFS evidence and QR verification.
- Result: delivered a public hybrid on-chain/off-chain architecture with deployed Polygon Amoy contracts and reproducible source code.

CERTIFICATIONS & LANGUAGE

AWS Training: AWS Cloud Practitioner Essentials; Getting into the Serverless Mindset - Completion Certificates (Jul 2026).

AWS Training Badge: AWS Educate Introduction to Generative AI - Training Badge (Jul 2026; verifiable via Credly).

Professional: Information Security Awareness (AIAcademy by AIPower, Jul 2026).

English: B1.4 - Intermediate; technical reading and written communication.
