

Nguyen Xuan Hai

Full-Stack Developer | React | ASP.NET Core | Odoo 18 | AI Integration

Ho Chi Minh City, Vietnam | Date of Birth: 29/11/2004 | 0929501116 | xuanhai0913750452@gmail.com

Portfolio: my-portfolio-nxh.vercel.app | GitHub: github.com/xuanhai0913 | LinkedIn: linkedin.com/in/xuanhai0913

PROFESSIONAL SUMMARY

Full-stack developer building production web apps, ERP workflows and AI-assisted delivery systems across React/Vite, ASP.NET Core, Python/Odoo 18, NestJS, PostgreSQL/SQL Server and cloud deployment workflows. Experienced with automotive dealership ERP, CMS, B2B platforms, LMS/community projects, realtime features, authentication, reporting/PDF generation and localization. Comfortable setting up project-specific AI context, skills and agent workflows with tools such as Claude, Codex and Antigravity to support planning, code review, CI/CD handoff, automation and operations.

EDUCATION

UTH - University of Transport Ho Chi Minh City: Information Technology major, 2022 - 2026. Higher education: University level. Coursework and projects focused on practical software development, web systems and applied programming.

SKILLS

Frontend: React 18/19, Vite, JavaScript ES6+, TypeScript, React Router, Tailwind CSS, Bootstrap, HeroUI, Framer Motion, GSAP, SlateJS, PlateJS, responsive UI.

Backend: Python 3.12, Odoo 18, ASP.NET Core 8, NestJS, Node.js/Express, RESTful APIs, Entity Framework Core, TypeORM, JWT, OAuth2, ASP.NET Identity, Swagger/OpenAPI.

ERP & Reporting: Odoo ORM, QWeb/XML, wkhtmltopdf, gettext i18n, TT200 accounting workflows, PostgreSQL, SQL Server, MySQL, QuestPDF, ClosedXML.

Data & Infra: PostgreSQL, SQL Server, Redis, BullMQ, Socket.IO, SignalR, Docker, IIS, Vercel, GitLab CI/CD, GitHub, pnpm, Nx monorepo.

AI & Agent Workflow: Claude, Codex, Antigravity-style agents, project skill/config setup, AI-assisted planning, code review, CI/CD handoff, automation, operations support, Gemini/DeepSeek/OpenAI APIs.

Quality & Tooling: pytest, pytest-cov, linting, Serilog, Cloudinary, MailKit, Swagger/OpenAPI, documentation and troubleshooting workflows.

Professional: Problem solving, communication, teamwork, time management, documentation, ownership across frontend/backend tasks.

WORK EXPERIENCE

Core Full-Stack Developer - Betodemy - Japanese Learning Platform

Start: Feb 2026 | End: Present

My position: Core Full-Stack Developer

Stack: React 19, Vite, Tailwind CSS 4, HeroUI, NestJS 11, TypeORM, PostgreSQL, Redis, BullMQ, Socket.IO, Nx, pnpm, GitLab CI/CD

Link: <https://betodemy.com>

- Worked as a core developer in a 5-person engineering team with Betodemy's Japan-side leadership, joining weekly meetings to discuss bugs, feature scope and release priorities.
- Shipped and stabilized production features across student portals, teacher-led classes, admin workflows, gamified practice and multilingual learning content.
- Turned post-release defects into tracked issues and supported weekly release handoffs with AI-assisted analysis, code review and CI/CD context inside an Nx monorepo.

Odoo ERP Support Developer Intern - AI Power - Automotive Dealership ERP

Start: May 2026 | End: Jul 2026

My position: Odoo ERP Support Developer Intern

Stack: Python 3.12, Odoo 18, PostgreSQL, QWeb/XML, wkhtmltopdf, Docker, GitLab CI/CD, gettext i18n

Link: <https://aipower.vn/vi>

- Supported an Odoo 18 ERP for automotive dealerships in Vietnam, covering sales, an 18-state after-sales service workflow, spare parts, warranty and TT200 accounting.
- Resolved BA/customer-reported defects and delivered enhancements across business logic, data models, QWeb/XML views, localized PDF reports and translations.
- Maintained changes across 18 custom modules and 99+ Python files, helping keep the 18-state workflow aligned with dealership operations through Docker and GitLab CI.

Main Full-Stack Developer / BA-facing Owner - Great Link Mai House - Digital Publishing Platform Start: Jul 2025 | End: Jan 2026

My position: Main Full-Stack Developer / BA-facing Owner

Stack: ASP.NET Core 8, React 18, SignalR, SQL Server, JWT, Google OAuth, Cloudinary, SendGrid, OpenAI API

Link: <https://greatlinkmaihouse.com>

- Rebuilt WordPress workflows as a React and ASP.NET Core platform, owning delivery from requirement clarification through release handoff.
- Integrated authentication, realtime updates, media handling and third-party services into one maintainable SQL-backed system for B2B publishing workflows.
- Worked directly in a BA-facing role to close scope and translate business decisions into frontend, API and database changes.

Main Full-Stack Developer / BA-facing Owner - VN Media Hub - CMS & Media Platform Start: Oct 2024 | End: Jan 2026

My position: Main Full-Stack Developer / BA-facing Owner

Stack: React 18, Vite, ASP.NET Core 8 Web API, Entity Framework Core, SQL Server, JWT, Google OAuth2, reCAPTCHA v3, Redis/Memory Cache, Serilog, Docker, QuestPDF

Link: <https://vnmediahub.com>

- Delivered a production CMS from requirement clarification to release, covering content, authentication, moderation and reporting workflows.
- Implemented caching, structured logging, SEO-friendly publishing and automated PDF exports to support reliable day-to-day content operations.
- Acted as a BA-facing developer to close feature scope and translate business workflows into React, ASP.NET Core API and SQL Server changes.

SELECTED PROJECTS

Full-Stack Developer / Volunteer - ECH English Community House - LMS Start: Oct 2024 | End: Jan 2026

My position: Full-Stack Developer / Volunteer

Stack: ASP.NET Core 8 MVC/API, Entity Framework Core, SQL Server, Bootstrap 5, JavaScript, ASP.NET Identity, JWT, Cloudinary, MailKit, QuestPDF, ClosedXML, IIS

Link: <https://ech.edu.vn>

- Task: support an LMS for a community English program serving disabled learners and people in difficult circumstances.
- Action: built course/content management, secure authentication, certificate generation, media storage, email notifications and Excel/PDF reporting.
- Result: digitized volunteer teaching operations and reduced manual administration through automated certificates and Excel/PDF reports.

macOS / AI Developer - Vision Key - AI Screen Assistant Start: Dec 2025 | End: Dec 2025

My position: macOS / AI Developer

Stack: Swift 5.9+, SwiftUI, AppKit, Google Gemini 2.5 Pro API, Carbon global hotkey, macOS Keychain, Chrome extensions

Link: <https://landing-vision-premium.vercel.app>

- Task: prototype an AI screen assistant for on-screen productivity and quick contextual assistance.
- Action: built secure API key storage, global hotkeys and Gemini-powered workflows with SwiftUI/AppKit.
- Result: published the supporting landing page and browser extension repositories for product presentation.

Frontend / Python Developer - Portfolio AI Assistant & LLM Unit Test Generator Start: Mar 2025 | End: May 2026

My position: Frontend / Python Developer

Stack: React, JavaScript, Three.js, GSAP, Gemini/DeepSeek APIs, Python 3.8+, pytest, pytest-cov, Black, Flake8, Pylint, Mypy, Vercel

Link: <https://my-portfolio-nxh.vercel.app>

- Task: make portfolio information easier for recruiters to explore and automate unit-test drafting for Python code.
- Action: built a Gemini-powered portfolio assistant and an LLM unit-test generator using DeepSeek API, pytest and coverage tooling.
- Result: improved recruiter-facing project discovery and created reusable AI-assisted testing and development workflows.

CERTIFICATIONS & ACTIVITIES

Google / AI: Gemini Certified University Student; Gemini Certified Faculty; Google AI for K12 Educators; Code a Joke-Telling Talkbot.

Additional: Basic Office Information Technology; Volunteer Participation Certificate; English Community House volunteer.
