AI

### AI Workflow

I set up project-aware AI workflows to turn messy context into plans, review notes, automation, and smoother release handoff.

Project Context

### Project Context

Structure requirements, codebase and docs into clear, actionable context.

Agent Skills

### Agent Skills

Use agents for coding, review, tests, automation and docs.

Claude

Codex

Antigravity

Review & CI/CD

### Review & CI/CD

AI-assisted review, quality gates and smoother release handoff.

## COMPANY EXPERIENCE

Feb 2026

Present

### Betodemy - Japanese Learning Platform

#### Role: Core Full-Stack Developer in 5-person product team

- Built features and fixed bugs across learning modules.
- Joined weekly product meetings, created issues after release, supported operations.

May 2026

Jul 2026

### AI Power - Automotive Dealership ERP

#### Role: Odoo ERP Support Developer Intern

- Supported Odoo 18 dealership ERP modules after BA/customer requirement updates.
- Fixed business logic, QWeb reports and i18n across 18 modules and 99+ Python files.

Jul 2025

May 2026

### Great Link Mai House

#### Role: Main Full-Stack Developer / BA-facing Owner

- Led WordPress-to-React/ASP.NET Core conversion.
- Built auth, realtime, media and integration workflows.

Oct 2024

Jan 2026

### VN Media Hub

#### Role: Main Full-Stack Developer / BA-facing Owner

- Led CMS/media platform from requirements to release.
- Built content, auth, moderation, SEO, caching, logging and PDF/report workflows.
