

Nguyễn Xuân Hải

Full-Stack Developer | React | ASP.NET Core | Odoo 18 | AI Integration

Ho Chi Minh City, Vietnam | 0929501116 | xuanhai0913750452@gmail.com

Portfolio: my-portfolio-nxh.vercel.app | GitHub: github.com/xuanhai0913 | LinkedIn: linkedin.com/in/xuanhai0913

PROFESSIONAL SUMMARY

Full-stack developer building production web apps, ERP workflows and AI-enabled tools across React/Vite, ASP.NET Core, Python/Odoo 18, NestJS, PostgreSQL/SQL Server and cloud deployment workflows. Experienced with automotive dealership ERP, CMS, B2B platforms, LMS/community projects, realtime features, authentication, reporting/PDF generation and localization. Comfortable owning features from UI and API design through database modeling, deployment and troubleshooting.

EDUCATION

UTH - University of Transport Ho Chi Minh City: Information Technology major, 2022 - 2026. Higher education: University level. Coursework and projects focused on practical software development, web systems and applied programming.

SKILLS

Frontend: React 18/19, Vite, JavaScript ES6+, TypeScript, React Router, Tailwind CSS, Bootstrap, HeroUI, Framer Motion, GSAP, SlateJS, PlateJS, responsive UI.

Backend: Python 3.12, Odoo 18, ASP.NET Core 8, NestJS, Node.js/Express, RESTful APIs, Entity Framework Core, TypeORM, JWT, OAuth2, ASP.NET Identity, Swagger/OpenAPI.

ERP & Reporting: Odoo ORM, QWeb/XML, wkhtmltopdf, gettext i18n, TT200 accounting workflows, PostgreSQL, SQL Server, MySQL, QuestPDF, ClosedXML.

Data & Infra: PostgreSQL, SQL Server, Redis, BullMQ, Socket.IO, SignalR, Docker, IIS, Vercel, GitLab CI/CD, GitHub, pnpm, Nx monorepo.

AI & Quality: Google Gemini API, DeepSeek API, OpenAI API, AI assistant workflows, pytest, pytest-cov, linting, Serilog, Cloudinary, MailKit.

Professional: Problem solving, communication, teamwork, time management, documentation, ownership across frontend/backend tasks.

WORK EXPERIENCE

Full-Stack Developer - Betodemy - Japanese Learning Platform

Start: Feb 2026 | End: Present

My position: Full-Stack Developer

Stack: React 19, Vite, Tailwind CSS 4, HeroUI, NestJS 11, TypeORM, PostgreSQL, Redis, BullMQ, Socket.IO, Nx, pnpm, GitLab CI/CD

Link: <https://betodemy.com>

- Assigned to build and maintain product modules for student portals, teacher-led online classes, admin workflows, gamified practice and multilingual learning content.
- Develop interactive exercise blocks, rich editor workflows with SlateJS/PlateJS, realtime classroom features and background jobs using Socket.IO, Redis and BullMQ.
- Coordinate frontend, backend, database and CI/CD changes inside an Nx monorepo, keeping new work aligned with existing architecture and code standards.

Full-Stack Developer Intern - AI Power - Automotive Dealership ERP

Start: May 2026 | End: Jul 2026

My position: Full-Stack Developer Intern

Stack: Python 3.12, Odoo 18, PostgreSQL, QWeb/XML, wkhtmltopdf, Docker, GitLab CI/CD, gettext i18n

Link: <https://aipower.vn/vi>

- Assigned to support an Odoo 18 ERP for automotive dealerships in Vietnam, covering sales, an 18-state after-sales service workflow, spare parts, warranty and TT200 accounting.
- Implemented and adjusted business logic, data models, QWeb/XML views, localized PDF reports and gettext translations across 18 custom modules and 99+ Python files.
- Used Dockerized development and GitLab CI workflows to deliver changes consistently within an established ERP codebase and reduce handoff friction with the team.

Full-Stack Developer - Great Link Mai House - Digital Publishing Platform

Start: Jul 2025 | End: May 2026

My position: Full-Stack Developer

Stack: ASP.NET Core 8, React 18, SignalR, SQL Server, JWT, Google OAuth, Cloudinary, SendGrid, OpenAI API

Link: <https://greatlinkmaihouse.com>

- Worked on a business publishing platform with a modern API/frontend architecture for media and B2B use cases.
- Built production-facing features around secure authentication, realtime updates, media handling and third-party service integrations.
- Supported maintainable delivery by keeping API, frontend and integration work aligned with deployment and handoff needs.

Full-Stack Developer - VN Media Hub - CMS & Media Platform

Start: Oct 2024 | End: Jan 2026

My position: Full-Stack Developer

Stack: *React 18, Vite, ASP.NET Core 8 Web API, Entity Framework Core, SQL Server, JWT, Google OAuth2, reCAPTCHA v3, Redis/Memory Cache, Serilog, Docker, QuestPDF*

Link: <https://vnmediahub.com>

- Assigned to build a CMS/media platform covering content management, authentication, moderation, SEO-friendly publishing and automated PDF/report exports.
- Implemented frontend and backend features with React and ASP.NET Core, including auth flows, content workflows, cache layers, structured logging and report generation.
- Improved operational readiness with API documentation, compression, image optimization and maintainable production-facing delivery practices.

SELECTED PROJECTS

Full-Stack Developer / Volunteer - ECH English Community House - LMS

Start: Oct 2024 | End: Jan 2026

My position: Full-Stack Developer / Volunteer

Stack: *ASP.NET Core 8 MVC/API, Entity Framework Core, SQL Server, Bootstrap 5, JavaScript, ASP.NET Identity, JWT, Cloudinary, MailKit, QuestPDF, ClosedXML, IIS*

Link: <https://ech.edu.vn>

- Task: support an LMS for a community English program serving disabled learners and people in difficult circumstances.
- Action: built course/content management, secure authentication, certificate generation, media storage, email notifications and Excel/PDF reporting.
- Result: helped create a more maintainable learning platform for volunteer teaching and community operations.

macOS / AI Developer - Vision Key - AI Screen Assistant

Start: Dec 2025 | End: Dec 2025

My position: macOS / AI Developer

Stack: *Swift 5.9+, SwiftUI, AppKit, Google Gemini 2.5 Pro API, Carbon global hotkey, macOS Keychain, Chrome extensions*

Link: <https://landing-vision-premium.vercel.app>

- Task: prototype an AI screen assistant for on-screen productivity and quick contextual assistance.
- Action: built secure API key storage, global hotkeys and Gemini-powered workflows with SwiftUI/AppKit.
- Result: published the supporting landing page and browser extension repositories for product presentation.

Frontend / Python Developer - Portfolio AI Assistant & LLM Unit Test Generator

Start: Mar 2025 | End: May 2026

My position: Frontend / Python Developer

Stack: *React, JavaScript, Three.js, GSAP, Gemini/DeepSeek APIs, Python 3.8+, pytest, pytest-cov, Black, Flake8, Pylint, Mypy, Vercel*

Link: <https://my-portfolio-nxh.vercel.app>

- Task: make portfolio information easier for recruiters to explore and automate unit-test drafting for Python code.
- Action: built a Gemini-powered portfolio assistant and an LLM unit-test generator using DeepSeek API, pytest and coverage tooling.
- Result: improved recruiter-facing project discovery and created reusable AI-assisted testing workflows.

CERTIFICATIONS & ACTIVITIES

Google / AI: Gemini Certified University Student; Gemini Certified Faculty; Google AI for K12 Educators; Code a Joke-Telling Talkbot.

Additional: Basic Office Information Technology; Certificate in Accounting and Auditing; Volunteer Participation Certificate; English Community House volunteer.
